

Even though 50% of generic drugs may cost less if you buy them at a community pharmacy, many CT residents are being forced to order their prescriptions by mail-order.

Is this how you would want to get your medicine?

Sec. 38a –544 of CT law makes mandatory mail-order illegal in CT. It doesn't seem right that, in pursuit of savings that may not exist, many large CT companies force employees into mail order anyway.

**STOP MANDATORY
MAIL-ORDER!
SAVE COMMUNITY
PHARMACIES!**

Community pharmacies **CANNOT** survive if their patients do not have a choice to patronize their pharmacy. Give Connecticut's people the **FREEDOM OF CHOICE** and save community pharmacies from closing. Keep the business in our state!

Dear _____

CT residents (the tax-payers of this state) should have a choice of where to purchase our prescription medicines. That choice is being taken away by employers that believe by using mail-order facilities to buy our prescriptions we will save money. That is not always the case. My local pharmacy cannot stay in business if I am unable to purchase my prescriptions there. Please save my pharmacy and put a stop to mandatory mail-order.
